**LOST
&
FOUND**

"Children are messengers we send to a time we will not see"

(Anonymous)

Mrs Barnard asked the Art students to write a poem on the relevance of Art today and a lot of effort was put into the following work:

SAMI RAMDEYAL

The Relevance of Art in our Daily Lives

Art, Art, Art do I tell the truth?

Is Art to heal, beautify and renew.

I say YES! For Art can change and uplift the spirit of the youth, while, being so true

Art stands for Abstract, Record, Transformed to show our thoughts in an inspiring way. Art is to symbolise the memory and thrill the people.

Art is used to show passion and challenge our minds to our hands

Art is a fighter of pain and hurt To help you rediscover the real you.

Art is to prepare ourselves in life to be good, but never rude.

Art shows us the highlight in our lives and helps to get a sparkle in our eyes.

Art is intense so we can see the transformation in our mind and fulfill our dreams to our satisfaction.

Emphasize the beauty in your eye because self discovery is the truth in your life.

Jamylee Marais

The Relevance of Art Today

Art is inspiring,

Its there for admiring

It tells stories about the future and the past

Now a days they build statues with cement and cast.

It is interesting to see how they use different materials in different ways

Not all art is simple, some take days

They get their inspiration from scrapyards, a metal created maze

When this art was created it was a craze;

Recycling became one of the worlds new ways.

Statues were made for men of importance

Robust, large and vast for representation of power

Now the ideas of the past have gone sour

Statues are small and made out of rust

They no longer are made large and robust.

Plastic bottles, glass, bottle caps and material even my old box from my cereal

Things that make me think

Totems that still stand

In the dry desert land

After Moses brink of disaster

They still managed to last

These questions I must ask

How long did the carving take?

How many did they have to make?

Art expresses feelings

weather its Magritte or painting on ceilings

Rap is a Gender of art

The difference forms, don't let me even start

A chocolate Moanalisa; Scrumptious for thought

Its nothing like May 3rd where they fought!!

Yusraa Muhammad

The Relevance of Art in our daily lives.

Art is the life of the World.

It is the way to communicate.

Art brings joy to some and life to others.

Some may ask what it's worth.

Others may not

Some may ask what's the use?

Can you answer and give the news?

Art is inside all.

But some can not give it to all.

Everyone has it, you and me.

The true Beauty of Art.

Do you notice it?

Do you feel it?

It is all around you!

The passion of Art.

Have you solved the problem?

Have you thought of it?

Where have you looked for the solution?

Is it in Art?

Art is used to inspire.

Art is used to persuade.

Art is used to reveal as well as conceal.

Art has a sixth sense.

But most important of all, Art is used to cleanse

We use Art to Commemorate and Compliment.

We observe and question.

And some conserve.

Art is used to elevate and formulate

Art is devoted to us, but are we devoted to Art?

Art is used to educate.

Art is used to improve.

Art is the essence of life.

Art is everywhere

Art is even in Science!!
